in-wall design speakers

XSCACE

# Beautiful design

Sage is a special range of top-notch in-wall speakers designed for the most luxurious homes worldwide.

The Sage in-wall speakers are a seamless fusion of form and function. They blend in effortlessly with your interior design and architectural elements, becoming a part of the very fabric of your home. Their subtle presence belies their true power, as they emit a rich, beautiful sound that fills your space with crystal-clear audio. With the Sage in-wall speakers, you can enjoy exceptional sound without sacrificing your home's aesthetic appeal.

# Hear music that is true to the artist's intent.

Although being understated and minimalistic, Sage speakers use the latest state-of-the-art technology to create an impeccable sound performance.

Sage features a frequency range that spans from deep, rich bass to clear and detailed highs, making them suitable for all types of music. The speakers have high sensitivity levels and can handle substantial power, ensuring that your music will be delivered with precision and impact.

# Make it a part of your beautiful home.

Blends Perfectly with Your Home

Custom Fabric to match your decor

Custom Painted Grill to match your decor

Each speaker is handcrafted with the finest materials and features a custom color option to perfectly match your decor. Our thin bezels and flush-mount brackets offer a smooth, minimalistic finish; your speakers will blend in wherever they are positioned.
