

XSCACE

Lucifer 8 Amplifier

Air Amplifier is the perfect device for anyone looking to install a 2 channel speaker setup. 80W on each channel is just wow. Don't want a powered output, it can also be used as a PRE-AMP! Airplay 2, DLNA, UPnP, Spotify Connect, Tidal Connect, Qplay, Pandora, Amazon Music, Deezer, Qobuz, Tune in

Power 2000 W (8 Ohms)

Channels 4

- XSCACE SCIENCE: Xscace employs low distortion, wide dispersion, and flat frequency response to produce outstanding audio for a completely immersive movie & music experience.
- PRECISE AUDIO PROFILE: Xscace produces the most authentic sounds as a result of its flat frequency response and zero frequency bias. You hear music that is true to the artist's intent.
- VERSATILE SOUND: Xscace produces sound of the same high calibre at both low and high volumes by utilising lighter, stronger driver materials with greater excursion and tweeters that can play lower into the frequency range.
- PETITE DESIGN: Lightweight & thin
- MULTI-MODE: Low power 250W at 8 ohms & 450W at 4 ohms
- DIVERSE USE CASES: Perfect for Home Theaters, Public Broadcasts, Conference Rooms, and pretty much anywhere
